

## Pergola 8617

It is a gearbox-driven aluminum canopy which enables you to feel better under the unpleasant weather. To open the slats, the sunlight comes in through the roof; to close the slats by the gearbox, it can effectively block the sunlight and rain.

The LED light strip can be optionally equipped, and it has a long service life with a low-energy consumption and full of fashion no matter in the daytime or at night.

Friends, colleagues or the family can sit together, chatting and laughing.

This state-of-the-art pergola witnesses the happiness of each guest.

All accessories are stronger and more durable comprehensively enhancing its functions on dust-proof wind resistance and drainage and extremely improving the comfortness for customer experience.
